REPORT OF SCHOOL BOARD.

To the Voters of Campton:

Your School Board has labored conscientiously to keep our schools thoroughly up-to-date. To this end, new equipment has replaced old when deemed necessary; and teachers have been employed who have proven exceptionally competent.

The depopulation of rural districts frequently compels the consolidation of schools. When this happens it is necessary to furnish transportation for scholars from closed schools living too far from those to which they are transferred. Therefore the charges for conveyance noted in this report are economical and necessary for the best efficiency of our schools. One strong school is better than two weak ones.

With these statements our report is herewith respectfully submitted for your consideration.
